REFERENCE

Bythne Joy Ronquillo
Cornerstone Virtual Assistance
bythnejoyronquillo@gmail.com

Full Stack Web Developer

Agusan Del Norte Electric Coop. INC. (ANECO)

2022–2024

- Developed and maintained responsive web applications using modern web technologies, improving overall user experience across devices
- Optimized website performance, reducing load times and enhancing system efficiency
- Troubleshoot and resolved technical issues, ensuring consistent functionality and minimal downtime
- Collaborated with team members to design and implement features aligned with client requirements
- Provided technical support and documented solutions for recurring issues

Capstone Project Lead – Deepfake Web Browser

Extension Developer

Caraga State University

2024–2025

- Developed a browser extension for deepfake image detection, improving user experience and content reliability on social media platforms
- Engineered real-time image analysis using Hugging Face API and FastAPI, optimizing system performance and scalability
- Implemented automated filtering and a review dashboard to support efficient troubleshooting and technical support of flagged content

Web Developer / Designer

Cornerstone Virtual Assistance

2025–2026 April

- Design modern, responsive website layouts in Figma for desktop, tablet, and mobile
- Translate client brand guidelines into polished, on-brand UI designs
- Collaborate with project managers and developers for smooth design handoff and revisions
- Iterate on designs based on client and creative director feedback
- Refresh and redesign sections of existing client websites as needed
- Build small business websites using AI-assisted tools (e.g., Claude, Base44, Lovable)
- Deploy websites to hosting platforms such as Vercel and Netlify
- Configure domain connections and DNS settings (Cloudflare, GoDaddy, Namecheap)
- Perform ongoing website updates and minor edits based on client requests
